# 1 SITUATION

## Who are we? What has happened?

We are Battalion LRG on a foreign goodwill tour of Stratis. President Gustavo has recently agreed to reduce his personal oversight of the island, in exchange for BAF assistance in overseeing infrastructure overhauls as well as a smooth transition from his Autocratic government to a Pseudo-democratic republic.

Local security personnel have suggested that some elements on the island, may pose a threat to President Gustavo's life and the safety of the civilians on the island, however the likelihood of any attacks from or on the civilian population is low at best.
