• SITUATION

Who are we? What has happened?

We are Eleventh Hour, a small scale private military contractor on a new medium lenght contract with the government of the Czech Republic and The German Government.

In a growing concern of recent developments in their military sector,Which have now boiled over, the Czech government has decided to prolong our contract on the condition of sticking through and aiding in removing the threat.

With our Sabotage and intelligence operation four days ago we've gathered ample intel and evidence on the rebel czech forces. unfortunately our efforts were not great enough to stop the assasination of the German Minister of Defense. which has directly corresponded with an immediate mobilization of the German armed forces in the region. however thankfully on our side. and it seems that a far more vast majority of czech forces is found to be not on their Governments side, and are willing and capable of putting up a strategic scale fight. we are here to aid the german army in putting down the mutiny before more damage can be done on the global scale.
