# LAST RESORT GAMING

Operation:	Operation NordAdler
Episode:	2 / 2
Location:	Violahti, Finland
Date:	05th Feb 2022
Time:	Step-off-02:00AM
Password:	Virojoki

## 1. SITUATION

### Who are we? What has happened?

NATO's Standing NATO Maritime Group (SNMG) continued its Baltic Sea deployment and training is visited Violahti, Finland.

During this year's visit of the German Bundeswehr, training in the cold weather and dense forest coastline of Finland is key for NATO wide defense operations. (read part 1 for the full story)

**Yesterday the situation escalated dramatically. Video footage has been released by the Russian state television showing German forces actively engaging Russian brothers living peacefully around the Finnish border towns.**

**Russia claims it only prevented further harm by intervening in the situation, forcing NATO forces further away from the disputed border.**

**Records from a Russian Border Guard vehicle shows German commanders, of which one had an American accent and the other appears to have studied law, harassing the Border guards.**

**To prevent escalation, they hastily needed to retreat for their own safety after one of the German troops started waving his rifle into the guard's face.**

**Although it looks like provocation by the Russian Federation, the 200th Separate Motor Rifle Brigade was not ready for an invasion. After moving most of the units over the border they seem to lack the supplies to carry on much further.**

**Sources tell that Diesel and Ammunition are scares. Russia has sent a resupply ship.**
