1. SITUATION

Who are we? What has happened?

After "Isla Duala" Island Group gained independence from the former British Colonial Forces in 1953, the small Nation on the West Coast of Africa had split up into several smaller States. This disunity has led to ongoing conflicts over Territory, Resources, Religion and ethnicity over the last 60 years, causing thousands of losses amongst the Military's and the Civilian Population. Surprisingly enough, the two biggest States, Yoiana and New Coloana, now have negotiated a Peace Treatment.

Intelligence gathered by MI6 suggests that they are intending to merge their Military Forces and to acquire Nuclear Warheads from the black Market.

This Alliance would prove a dangerous Threat on the West African coast, especially since both States still hold a deep resentment against the United Kingdom due to their colonial history. Therefore, the British Defence Ministry has ordered the disaggregation of the Peace Treaty at any means necessary.

You are part of the 23 Special Air Service Regiment, Last Resort Company, deployed to the West Coast of Isla Duala on the Aircraft Carrier HMS Prince of Wales, tasked with disturbing the Peace between Yoiana and New Coloana.
