• SITUATION

Who are we? What has happened?

The year is 1986, the GDR (German Democratic Republic) economy is cracking down as the Soviet economic support is pulled. Intelligence states that the party leaders in a desperate attempt to keep the population under control, have decided that a battle victory will keep the people at ease. Taking back West German resources and technology, this will immediately increase their status.

In the last couple of days, east German reconnaissance vehicles and troops have been spotted crossing the fairly open borders in the country side. Their target is likely the NATO airbase as destroying this, reduces any chance of rapid re-enforcement.

The 11th Hour Armoured Battalion battlegroup have been moved in the area, using a local farm preventing to get seen by East sides recon planes.

Yesterday the GDR launched a full-frontal attack. Due to unexpected events a nuclear blast took out most radio communication in the area. The NATO airfield got severely damaged by a bomber run and is no longer usable

The remaining forces in the area have created an emergency airstrip on the southern highway. The Panzergranadier section (you) are currently hiding from GDR recon planes in an abandoned farm. Due to the limited night vision capabilities by enemy vehicles and planes, you will engage the enemy at night!

• MISSION

What are we going to do about it?
