1. SITUATION

Who are we? What has happened?

After the end of friendly relations with the U.S. and a less than fortunate trade deal for the country with China, Angola has now fallen into chaos following a military coup. Chinese investors solidified their position on several oil rigs and the mainland. Those same investors started bringing PMCs of unknown origin into Angola, furthermore there appears to be a sizeable amount of regular chinese military forces present.

A remainder of the previous government has asked for military aid to get the chinese out of their country.

We will be deployed as the LRG forces in a coalition taking care of the southern part of the angolan coastline. Our main objective will be to take out the PMC forces and limit chinese aggression.
