1. SITUATION

Who are we? What has happened?

After dealing a finishing blow to the splinter forces and blaming the chinese for it, their remaining forces have joined the regular Army of the island and given us ample reason to engage the chinese forces as unlawful invaders.

In the mean time the chinese forces have retreated to the south-western part of the island and are preparing to leave the area under cover from their fire support units.

We need to get all intel we can before the chinese destroy it. It is still not clear why they were here in the first place and where they did supply the rebels from.
