1. SITUATION

Who are we? What has happened?

We are LRG mercenary group Pure Security deployed at the independent Island of Temblan. After 2 Coups in the last year there is no stable government in Temblan, however there is a drug cartel operating out of this area as well as a fast growing militia trying to take control of the island.

Our very legitimate and trustworthy employer recently bought mining rights on the island and now wants to cash in his investments, however several of his employees have been kidnapped by the Drug Cartel which is getting backup from the local militia for payment.

We are tasked to take out the drug Cartel along side their money flow as well as to destroy or capture most of the militia equipment and capture the militia leader.

Their leader is known to us as General Riccardo who we need to capture, he has strong ties to the cartel and can help us to find them and take them out.

There are hefty bonuses for living hostages and captured Air assets in our contract so go out there and make us rich.
