## 1. SITUATION

### Who are we? What has happened?

After several anti drug campaigns in Morocco and West-Sahara many Crime syndicates but also religious extremists have fled over the border to Mauritania to continue their operations. This has left the local government completely overburdened, as the country still recovers from Covid and a massive drought. Several international organizations including IDAP, the Red Cross , Interpol as well as NATO have offered their assistance .

We are the LRG BAF Platoon sent to the southern part of the coast line to keep the peace and security in the region, ensuring the safety of the civilians and the foreign organizations in the region.

After the cargo ship was secured it appeared that 4 crew members were missing, as they were kidnapped and flown off to a remote location using a stolen MI-8 we have recent satellite intel about it's current location.

Also after reviewing intel about the drug trade we pin pointed a town with several stashes of drugs and information about the leader of the local syndicate Murat Khan.

## 2. MISSION

### What are we going to do about it?
